

Quality & Food Safety Policy

We, the members of Oriental Yeast India Pvt Ltd, are committed to manufacture and supply consistent Quality and Safe Products that always meet the customer requirement and expectations.

We maintain our quality and food safety system by keeping consumers in mind with our basic policy “**Quality and Safety shall take priority over everything else.**” and promote enhancement of our food safety and quality management system to be capable of responding appropriately to external and internal changes.

We shall strive to achieve this through -

- Complying with national, municipal and industry group’s laws and regulations and regulatory requirements concerning food safety and requirements of customers.
- We facilitate internal & external communications and share information on quality & food safety with our customers and business contacts as well as our employees in a prompt and appropriate manner.
- Communicate our Quality & food safety policy across all our employees, suppliers, customers, contractors and other relevant interested parties.
- Build a quality and product safety capability, mind set and culture through the structured programmes that develop employees’ competencies and technical skills.
- Continuously improving processing environment, practices and the documents according to the food safety management system.
- Establishing the quality and food safety objectives & reviewing its performance periodically.
